

Hi Sam,

Everything is great, thanks for asking, what about your week, family is okay?

About that, I saw too but the backend may be done by David, thought.

Yesterday I was talking to him and tells me that it would be finalized in few days because he was having head brakes with it.

The login screen is finally completed, here you are the link, you can also tell me opinions if it doesn't look great. [link]

And yes, the meeting is still on, it's better for us if you can bring your laptop to see it together and talk about the project.

Thank you.

See you tomorrow,

Samu.
